**LEGGETT & PLATT WORK FURNITURE LAUNCHING INDUSTRY-LEADING PRODUCTS  
AND HIGHLIGHTING CAPABILITIES AT INTERZUM 2025**

COLOGNE, GERMANY, May 20, 2025 – Leggett & Platt Work Furniture, a division of Leggett & Platt, will display a range of innovative products and their global development capabilities at Interzum 2025, May 20-23. Attendees will have the opportunity to meet product development experts and business unit leaders and experience products such as:

**LP-52 Seat** – A structural seat with patented quick-tensioning drawstring system. Applying upholstery with the LP-52 system does not require special equipment or staples, permitting repairs or replacements in the field and extending the useful life of the chair.

**LP-24 Self-Weighing Synchro with Quick Adjust** – A best-selling self-weighing mechanism, delivering an industry-leading, supportive experience for a variety of users. Standard models offer factory-set customization of the tension range. A front quick-tension option is also available, giving users the ability to fine tune their tension. The LP-24 platform includes other customization options, such as lever or cable activation, handle design, bespoke backrest options, and custom cover designs.

**LP-53 Self-Weighing Work Chair Synchro** – A sleek, self-weighing mechanism designed to seamlessly integrate with lightly scaled work chairs. It offers greater design freedom through its lightweight construction and elegantly simple function. Delivering a performance range perfect for both the dynamic workplace and home environment, the LP-53 provides a sophisticated, yet streamlined, solution in a small package.

**Quick-Attach Arms, Backs, and Cylinders** – An array of high-quality, easy-to-use work-chair components that provide ease of assembly, repair, and end-of-life management.

To learn more about certain products and capabilities, visit Leggett & Platt Work Furniture at Interzum 2025, Hall 9.1, Stand C018/D019.

**About Leggett & Platt**

Leggett & Platt (NYSE: LEG) is a diversified manufacturer that designs and produces a broad variety of engineered components and products that can be found in many homes and automobiles. The 142-year-old Company is a leading supplier of bedding components and private label finished goods; automotive seat comfort and convenience systems; home and work furniture components; geo components; flooring underlayment; hydraulic cylinders for material handling and heavy construction applications; and aerospace tubing and fabricated assemblies.
